The image shows a full page of graph paper. It features a uniform grid pattern. The primary grid is composed of solid red lines, creating large squares across the entire page. Within each of these large squares, there are smaller squares defined by dashed red lines. Specifically, each large square is divided into four smaller squares by a single horizontal and one vertical dashed line. This creates a 2x2 sub-grid within every larger grid unit. The overall effect is a dense, repeating pattern of solid and dashed red lines on a white background.
